## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 11-19, drawn to a method of using an ester or the composition as an electrolyte system, an electrolyte composition and an Li-ion storage cell comprising the ester or the composition.

Group II, claim(s) 20, drawn to a process for preparing an ester.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: JP 10189038 and EP 0704922 teaches that Formula (III) is known to be used in an electrolyte system.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Art Unit: 1745

Specie 1- Formula (I) and (IA)

Specie 2- Formula (II) and (IIA)

Specie 3- Formula (III) and (IIIA)

Specie 4- Formula (IV) and (IVA)

Specie 5- Formula (V) and (Va)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:  
Claims 11 and 13 contain the cited specie

The following claim(s) are generic: Claims 11-20.
